Why return my meds?

Storing unwanted or expired medicines in our homes contributes to the growing epidemic of abuse and accidental poisonings. When flushed or thrown away, these medicines become toxic to our environment. Proper disposal is the safest and most environmentally sound solution.

1

REDUCE ACCESS

More than 60% of those abusing prescription drugs get them from family or friends

2

REDUCE ABUSE

Over 12% of Washington State teens use prescription drugs to get high

3

PROTECT PLANET

Proper disposal means our plant's landfills and water systems will be less polluted
