

# State Targeted Response to the Opioid Crisis Community Prevention and Wellness Initiative (STR-CPWI) Program & Strategy Guidance

---

This document is intended to provide information and guidance for the State Targeted Response to the Opioid Crisis Community Prevention and Wellness Initiative (STR-CPWI) Community Coalitions to use for their Strategic Planning Process.

## STR-CPWI Program and Strategy Selection Guidance

The programs and strategies in **Table A**, are the approved preliminary Evidence-based Programs (EBPs) for the State Targeted Response to the Opioid Crisis - Community Prevention and Wellness Initiative (STR-CPWI) Community Coalitions to use in the 2017 Strategic Planning process.

- Programs in **Table A** are the only programs that will count toward meeting the 60% EBP program requirement.
  - All other programs and strategies shall be counted as innovative and may not exceed 40% of the planned number of programs per year.
    - If a direct service program or strategy is listed on the Excellence in Prevention list on [www.TheAthenaForum.org/learning\\_library/ebp](http://www.TheAthenaForum.org/learning_library/ebp) that program/strategy is still considered innovative if it is not listed in **Table A**.
- The Environmental and Information Dissemination Strategies are neutral and will not count toward or against the 60% EBP requirement.
  - The Environmental and Information Dissemination strategies listed in **Table B** are the Environmental and Information Dissemination strategies that have been identified for the focus of the STR-CPWI funds.

**Table A**

<b>Evidence-based Program/Strategy Name</b>	
1. Athletes Training & Learning to Avoid Steroids (ATLAS)	8. Positive Action
