

Making a Suicide Safer Community

Applied Suicide Intervention Skills Training (ASIST) is for anyone 16 or older—regardless of prior experience—who wants to be able to provide suicide first aid.

ASIST is founded on the principle that everyone can make a difference in preventing suicide: Regardless of experience, profession or education. The more people in the community have suicide intervention training, the more likely it is that we will be able to identify someone at risk and intervene to keep them safe.
