Initial Restorative Justice Practices - Aug 12th-13th

Restorative practices help to build community, celebrate accomplishments, transform conflict, rebuild relationships that have been harmed, and reintegrate students who have been suspended or expelled. A restorative approach brings awareness that misconduct is part of the developmental process of every young person and fits well within a PBIS framework.

Presenters: Bella Bikowsky, Ph.D. & Angela Brooks, Ed.D.

Tier II - Aug 12th-13th

This presentation will focus on building awareness around using Restorative Approaches to deliver evidenced-based Tier II Interventions that encompass a trauma-informed lens. In addition to the interventions themselves, attention will be made to the building blocks of Tier II interventions as well as data tracking and progress monitoring of the interventions.

Presenters: Bella Bikowsky Ph.D. & Maggie Schulze, Ph.D.

Incorporating Mental Health Awareness & Interventions into your Multi-Tiered Systems of Support (MTSS) Framework – Aug 16th

This presentation focuses on building awareness around the common mental health challenges in the school setting including anxiety, depression, and executive functioning challenges that impact the learning of students. Interventions will be shared to address these challenges within the MTSS framework as well as data tracking and progress monitoring practices.

Presenter: Bella Bikowsky, Ph.D.
