
WEBCAST EVENT

Suicide Prevention: Advancing State Efforts to Save Lives

Wednesday, October 2, 2019
10:00am – 11:30am

Creating suicide safe communities requires shared commitment and vision. Join suicide prevention leaders from Oklahoma, Texas, and Louisiana as they describe how their states are building state infrastructure to prevent suicides. Learn about the challenges they have faced when promoting awareness, implementing policy changes, disseminating training and best practices, as well as successful strategies for overcoming roadblocks.

This webinar will highlight the Suicide Prevention Resource Center's new State Suicide Prevention Infrastructure recommendations. Join in to learn how developing a strong state infrastructure to address suicide allows for sustained, evidenced-based programming.
