4 clock hours or ongoing training hours provided

This 4-hour training provided by the Office of Superintendent of Public Instruction (OSPI) in collaboration with the Washington Coalition of Sexual Assault Programs (WCSAP) will deliver a training on sexual abuse prevention and the intersections it has with primary prevention, trauma-informed care, sexual health education, and social emotional learning. We will spend this time familiarizing ourselves with the spectrum of prevention and its overlap with many initiatives already implemented within school buildings. The training has intentional time for schools & districts to connect with community sexual assault/domestic violence organizations within their communities.
