14 week 2 hour session for parents

Notes from facilitators-

I especially loved the 15 minutes of our final session, watching the kids and parents decorate pots and plant seeds together- it pulled all 14 weeks together and was a true celebration!

Zoom really worked for parents of this age. No going out after dark, no getting home after bedtime. They could tune in while finishing dinner and getting their child to bed on time.

I really appreciated the curriculum messages that we were teaching.
